Turning Around Chronically Low-Performing Schools

School turnaround is a process for helping chronically struggling schools raise student achievement dramatically and quickly, within one to three years. A practice guide from the Institute of Education Sciences recommends four school turnaround practices.

Improved Leadership

- Hire new leader from inside or outside the system, or change leadership practices.
- Communicate clear direction and expectations.
- Demonstrate instructional leadership and accessibility.
- Establish connections with the community.

Quick Wins

- Identify areas that matter for rapid change.
- Develop strategies for accomplishing goals quickly.
- Consider goals set by other schools that led to quick wins.

Committed Staff

- Recruit new staff.
- Assess the strengths and weaknesses of staff.
- Redeploy or reassign staff as needed.
- Replace teachers who actively resist the change.

Focus on Instruction

- Examine school-, classroom-, and student-level data.
- Provide targeted and intensive professional development.
- Modify instruction and provide interventions.
- Track progress and make adjustments.

Topic: *Turning Around Chronically Low-Performing Schools (5T)*
Practice: *Signal the need for dramatic change with improved leadership. (Improved Leadership)*

PRACTICE SUMMARY		
Title/Media Type	Who	Description
<i>Signaling the Need for Dramatic Change With Strong Leadership</i> Multimedia Overview 5:38 min		<ul style="list-style-type: none">Strong leaders communicate expectations and strategies to the staff through inspiration, encouragement, and connections between the school and the community.Strong leaders share responsibilities, take risks, and implement new practices.Strong leaders continually assess progress, provide feedback, and make adjustments to instruction.Strong leaders need to be accessible to staff, parents, and the community.

LEARN WHAT WORKS		
Title/Media Type	Who	Description
<i>Signaling Change</i> Expert Interview 3:56 min	Byron Hassel, Ph.D. Public Impact	<ul style="list-style-type: none">Dr. Hassel describes the importance of strong leadership in school turnaround and the role that principals play in signaling the need and direction for change.Turnaround leaders must personally analyze data to pinpoint the big problems.Successful leaders need to be willing to break norms, rules, and traditions.Leaders must make clear that change is mandatory.Turning around a school can start with high-visibility "quick wins" to show the staff and community that change is possible and to build momentum.
<i>Supporting and Developing Turnaround Leaders</i> Expert Interview 6:25 min	Byron Hassel, Ph.D. Public Impact	<ul style="list-style-type: none">Principals must take responsibility for existing problems. Newly hired principals must learn about existing relationships and policies.Disasters must give schools the freedom to build the team and allocate time to get results and support principals meeting resistance. Districts should also measure progress.Turnaround leadership requires special skills.

Co Director, Public Impact

Activity: Video Reflection

1. In the video, Dr. Hassel stated that you almost never see a turnaround where there isn't that strong leader driving the process forward. Why is a strong leader so critically important in a turnaround process?
2. Discuss two methods that leaders use to signal change. Then, identify two specific actions to support each method.
3. What are quick wins? Why are they so vitally important early on in a change effort?

Reciprocal Accountability

My authority to require you to do something you might not otherwise do depends on my capacity to create the opportunity for you to learn how to do it, and to educate me on the process of learning how to do it, so that I become better at enabling you to do it the next time.+

--Elmore, 2004, p. 69

Rethinking What We Are About

1. Assemble into same school groups.
2. Using Waterford High School as an example, work through the Rethinking What We Are About handout.
3. This will help you determine if your mission, vision, principles, and goals are clear, or if they should be redefined.

The Direction

There are many things that educators do to try to improve achievement in a low-performing school, but perhaps the most important is focusing on improving instruction. If instruction in classrooms stays the same, achievement will stay the same. So improving instruction is the core work of generating better results for children.

--Johnson, 2008

The manner in which a teacher presents lessons is as important as the instructional design underlying the content being presented.

--Carnine et al., 2006

Effective Instructional Techniques

- " Explicit teaching: Model, Practice, Check
- " Clear signaling
- " Appropriate pacing
- " Sufficient wait/think time
- " Practice opportunities
- " Monitoring/Checks for Understanding
- " Error correction
- " Positive academic reinforcement

Effective Questioning

Less hand raising = increased participation

Why?

Five Step Method for Effective Questioning

1. Ask question
2. Provide think time
3. Frame answer (as necessary)
4. Students prepare; teacher monitors
 - . Think/Pair/Share, Look/Lean/Whisper, Turn and Talk
 - . Small Group Share
 - . Think/Write/Show (white boards)
5. Call on student(s): non-volunteers

Establish Instructional Norms

NORMS can be useful to a staff *LEO*

- ~ High quality training and professional development occurs around all instructional strategies included in the norms
- ~ The norms are jointly developed and owned by each team member
- ~ They are constantly reviewed, referred to, and used for monitoring and observations
- ~ Instructional conversations center around the strategy and students' understanding of content as a result of the strategy

Assess Progress and Make Adjustments:

" Video: *Instructional Tours*

" Don Davis, Principal
Waterford High School

Instructional Tours: Discussion Questions

1. How does the Walk-In Observation form help to frame instructional tours, both for those observing and those being observed?
2. Principal Don Davis states that "There is trust here. It's not evaluative." How might instructional tours help to build trust among staff? Before beginning instructional tours, what would a staff need to make sure is in place so that tours don't become evaluative?
3. How might instructional tours also help to build consistency of instruction among classrooms? Why is this consistency beneficial for students?
4. How might instructional tours help to promote team collaboration?

Additional Helpful Tools

DO

" Planning Tool for Classroom
Observations

" Using Data to Improve Instruction

Concluding Reflection: Maintain a Consistent Focus on Improving Instruction

- " Look at the examples/ideas you've written in each category of your chart.
- " Star one item under examples/idea for each category that you think you would like to take back to your school (total of six stars).
- " Then, narrow it further by looking at your six starred items; circle two that you would like to implement immediately.
- " Reflect: What actions will you need to take for implementation to occur?

Recommended Practice: Make Visible Improvement Early in the School Turnaround Process

Key Concepts

- " Consider goals that have worked in other turnaround schools

Culminating Activity: Acrostic Summary

T-U-R-N-A-R-O-U-N-D

Good to great transformations never happened in one fell swoop. There was no single defining action, no grand program, no one killer innovation, no solitary lucky break, and no wrenching revolution. Good to great

comes by a cumulative process- step by step, action by action, decision by decision, turn by turn of the flywheel- that adds up to sustained and spectacular results.
